STRETCH

2013 DECEMBER 5-6

STRETCH will feature leads, founders, CTOs, and CEOs sharing their real world stories on their success and failures. They'll talk about the challenges of building successful teams and scaling up organizations from 20 to 200.

Get inspired by stories from companies that have been digital and agile from day one and hear how they managed to implement the language of change as well as establishing a culture of feedback.

MLOC.JS

2014 FEBRUARY 13-14

mloc.js 2014 Conference is about engineering million lines of code applications on the JavaScript platform. We see the bright future of generated JavaScript code and the web as a platform. Our conference cover tools and frameworks helping you compile or write maintainable, high performance, beautiful code.

Creating a 3D game in C++ and WebGL for the web, or a complex single page application in Vanilla JS?

Let's talk about what will be possible on this platform in the next 10 years.

CRAFT

2014 APRIL 24-25

CRAFT is about craftsmanship in software companies, which tools, methods, practices should be part of the toolbox of a modern developer and company. You can learn the most important topics from the best speakers and practitioners in our community.

CRAFT is not just about software development but company culture, we cover topics from continuous delivery to continuous improvement.

RAMP

2014 JULY 10-11

RAMP 2014 presents talks and discussions for every advanced developer in the world interested in scalability. The idea is to learn from each other by listening to stories that can help us to be leaner and more agile.

We're going to learn about best practices, possible pitfalls, and starting to build systems that will be easy to scale.

This is not the first time we have organised RAMP. The first time we did this was back in the summer of 2013 and it was a great success.

STATISTICS

So far we have delivered two successful conferences;
MLOC.JS and **RAMP** and they've produced the following statistics:

250+ ATTENDEES / CONFERENCE

30% of them came from somewhere other than Hungary

RAMP speaker Jeremy Edberg clocked up **51,675** page views when we published his talk on InfoQ.

28,000 unique online live streamers watched MLOC.JS.

Live streaming at USTREAM channel, TNW, and HWSW.

We had attendees from **28** different countries.

Covered by TNW, Techcrunch, Highscalability blog, PC World, HWSW, and many more.
